

## Why use a Deposit Broker?

There are several great reasons to use a deposit broker instead of a bank!

### Personal Service

You benefit from the best products developed by the large banks and trust companies, while at the same time you get the service that only a small company can provide.

### Best Rates

Deposit Brokers have access to higher GIC rates from their network of banks, trust companies and credit unions.

### No Fees

By using a Deposit Broker we do the rate shopping for you at no cost to you. We are paid by the financial institution.
